# How to log in to Seesaw Class App from home

Download the Seesaw Class App from the App store

Open the app once it's downloaded and Click on 'I'm a student'

Click on 'Scan QR code' – the QR code has been sent home in learning packs. Please note that this is a new QR code to what has already been used in school previously.

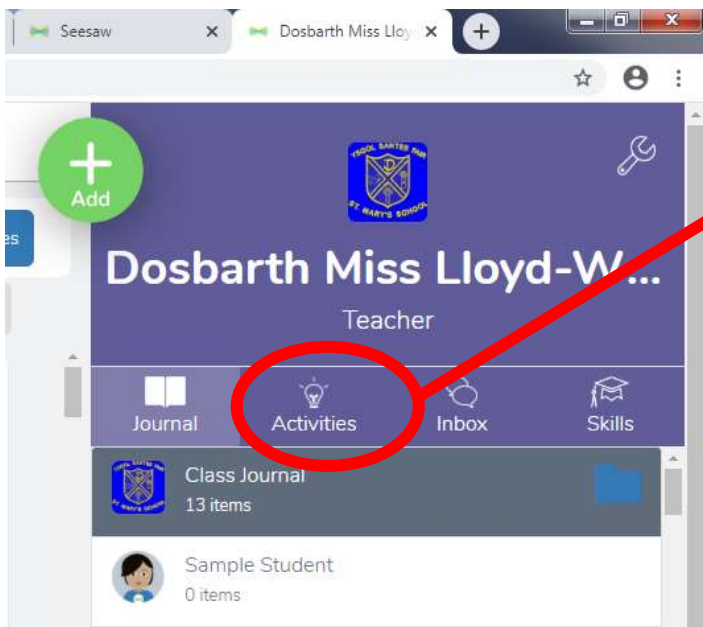

Place the QR Code in this space using your camera.

*You may need to allow the app to access your camera.

You should see a page similar to this – although it should say 'Student' where this says 'Teacher'

Click on the lightbulb – Activities tab. This is where you will see all the activities that have been assigned to your child to complete.
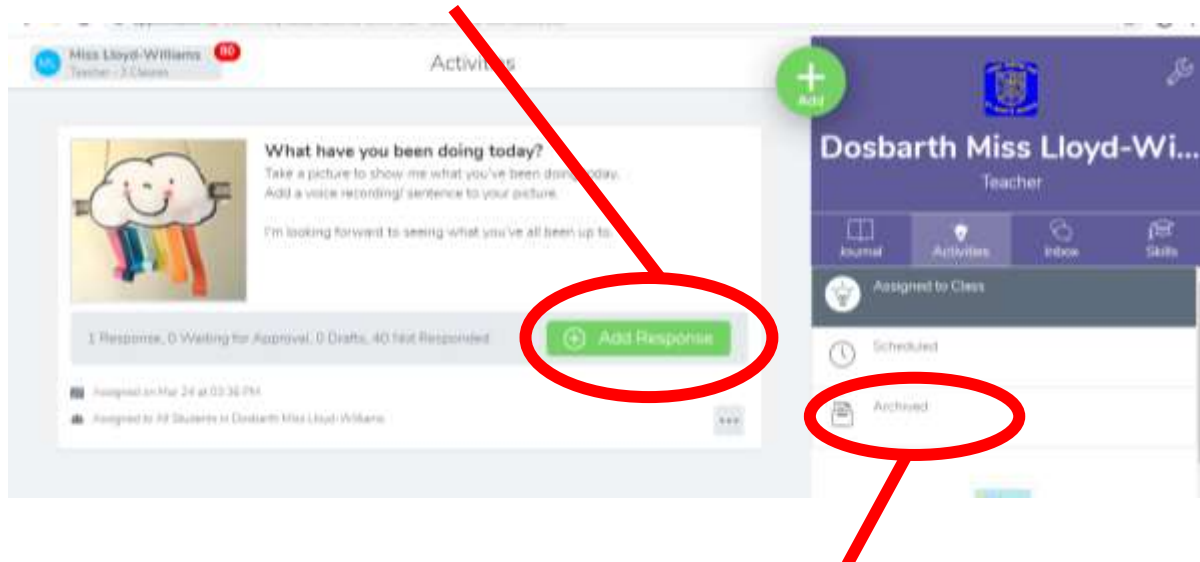

You will then see something similar to this on the left hand side of the page.

This is an example of the task or a template for your child to complete.

*Some activities will not have this.

This is the name of the activity and instructions on what to do to complete the activity.

To complete the activity – please click on the green 'Add response' button

*Please note that once an activity has been completed it will disappear from the assigned activity list – you can always find it in the 'Archived activities' list if you ever need it.

When you click on 'Add response' you will be taken to a page that looks like this – you can then choose the best way to respond to the task, depending on what the activity is.

Adds a photo – at that moment.

Drawing tool – you can create your own drawing.

Let's you record a video

Uploads a photo or document

Notes – you can type into the document.

Adds a web link.

Once you have completed the activity in whichever way is best. You need to click on the green tick in the top right hand corner of the screen. This saves the work and sends it to the teacher to approve.

While completing tasks, you may want to use these tools.

Draft – you can save a draft of your work, you can then come back and work on the draft before submitting it to your teacher.

Delete your work – you can delete and start the task again.

Zoom – you can select an area to zoom in on.

Undo & Redo – you can undo/redo your work.

Add a text box onto your work.

Record a voice recording over your work.

Add a picture from your camera or photos.

Add shapes to your work and you can change the background too.

Add a caption to your work.
